Sub: Payment of transportation charges on paddy for Cross district movement.

Ref: This office letter No.19064 dt.05.11.2016.

Sir,

With reference to the above, I am to say that the millers of your district had lifted paddy from other districts in KMS 2016-17 as per approval of this office.

The transportation charges on paddy shall be released to the custom millers for such cross district movement as per guidelines & procedure given below.

1. Transportation charges shall be paid to the millers as per rates communicated vide this office letter No.19064 dt.05.11.2016. This is to reiterate that the revised rate of transportation charges i.e. Rs.18/- p.q. for 1st 10 Kms distance is payable to those millers who have delivered entire CMR due of KMS 2016-17 by 30.09.2017.
2. Govt. of India has allowed Rs.36.18 p.q. of paddy as transportation charges in the provisional economic costing. It has been decided that the average transportation charges of district after payment of transportation charges to the custom millers shall not exceed Rs.36.18 p.q. Hence you are required to calculate total transportation cost of the paddy for entire quantity of paddy delivered to the custom miller out of your own district procurement and of paddy lifted from other districts. The distance for paddy lifted from other districts is to be ascertained from the Google Map.
3. The average transportation charges per quintal is to be worked out dividing total transportation cost (for paddy procured in own districts and lifted from other districts) with total quantity of paddy (own district and other districts). If the average cost is within Rs.36.18 p.q. you may release the transportation charges for the paddy lifted from other districts for the actual distance as ascertained from Google Map.

P.T.O.

4. In case the average transportation cost exceeds Rs.36.18 p.q. you should not release transportation charges for paddy lifted from other districts and refer the issue to OSCSC Head Office for further orders.

Yours faithfully,

Managing Director
