Sub: Clarification regarding utilization of gunny for CMR delivered by custom millers.

Ref: Your letter No.3921 dt.07.11.2017.

Sir,

With reference to the subject & letter cited above, I am to say that as per clause 40.3.2 of Procurement Guideline of KMS 2016-17 custom millers shall deliver CMR in standard packing of 50 Kg. net with variation of plus/ minus 250 gms. This means CMR delivered in a lot of 400 bags shall weigh minimum of Qtl. 199 in case all the bags contain 49.750 gm each and maximum of Qtl. 201 if all the bags contain 50.250 gms each. But there is no provision for variation in number of units (bags) of a lot under the rules of Standard Packing. In other words each lot must contain 400 bags but weightment of the lot may vary from 199 qtls to 201 qtls.

However, in actual, some bags will be weighing less than 50 Kg and some more than 50 Kg and as per law of average, total weight of rice in 400 bags should be in the range of 199 qtls to 201 qtls. Any variation to the above norms shall be treated as un-standard lot and shall not be accepted from the millers. In this regard guideline/ instructions issued vide Head Office letter No.4060 dt.28.02.2011 (Copy enclosed) shall be followed for finalization of gunny account and bills of the custom millers.

Yours faithfully,
