No. 16928

Dated 26-10-18.

From

Saroj Kumar Samal, OAS  
Managing Director.

To

All CSO-cum-District Managers,  
OSCSC Ltd.

Sub: **Inspection of Mill premises and authentication of milling capacity.**

Sir,

Procurement for KMS 2018-19 commences from 1<sup>st</sup> November 2018. Accordingly Millers are to be tagged to the PPCs factoring in distance as the primary meet point and occasional consideration of need from the perspective of quantum of paddy. However they will be allowed for off-take basing upon the security deposited by them and the ratio to be declared by Government in administrative department. This is mandatory that amount of security money is to be in complete correspondence to the milling capacity as prescribed and intimated. Hence assessment of milling capacity even of the existing Mills for which either authentic information is not available or the recorded capacity is doubtful/disputed inspection should be carried out immediately by a team comprising of ACSO of the Sub-division, Marketing Inspector of the Block, Procurement Inspector of the nearest location. The report thus received will require approval of the CSO-cum-District Managers, OSCSC Ltd.

Besides there are instances of enhancement being allowed by the CSO-cum-District Managers with reference to the capacity which was recorded in the last KMS. In such cases relevant information is to be collected by inspection of the said teams. The compiled information is required to be endorsed by the CSO-cum-District Manager, concerned certifying the enhancement to the Corporation Head Office for concurrence. Report of enhanced capacity can be acted upon only after concurrence of OSCSC Head Office. The arrangement takes immediate effect. The inspection and recording of milling capacity can be concurrent and the exercise should be over within seven days unflinching. Action taken report may be furnished to this office in the 1<sup>st</sup> week of November 2018. Information about Mills of unchanged but disputed capacity and enhanced capacity may be compiled in the format-I and II respectively, as attached.

Yours faithfully,
